

DRUMMONDS

CLASSIC HANDMADE QUALITY

*Established 1989*

## *Heritage*

Manufacturing our classic designs requires great skill and craftsmanship. With our own chinaware, brassware and iron plants we ensure a level of quality and authenticity that is unequalled anywhere else in the world.

*Timeless*

All our baths are made from cast iron, which is solid and supremely durable. Each bath is poured into the mould by hand to create classic timeless designs.

## *Beauty*

Up to five layers of enamel  
are sprinkled by hand  
resulting in a beautiful  
undulating finish in the  
interior of our baths.

## *Unique*

There is a fine art to polishing the exterior of a cast iron bath. The process involves grinding down the cast iron so it is smooth to the touch and the natural blemish in the iron shows through. Each polished bath is therefore unique, with the final lacquer coating capturing the beauty of the iron forever.

*Detail*

Every tap and brass fitting in the Drummonds range is made by hand. We use the lost wax process to cast the fine detail and beautiful curves that make a Drummonds' product stand out.

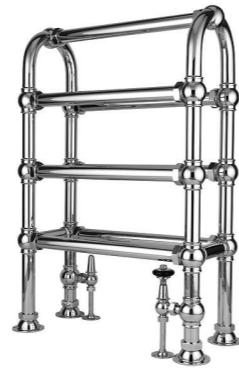

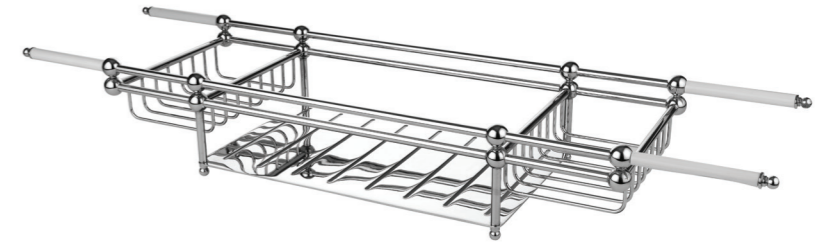

*Expressive*

Designing our range is an expressive process. We work up each product slowly and methodically to ensure its quality when complete.

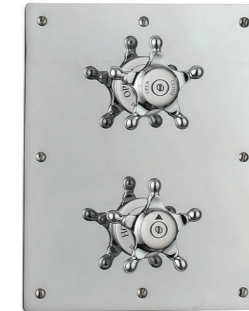

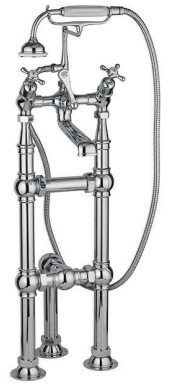

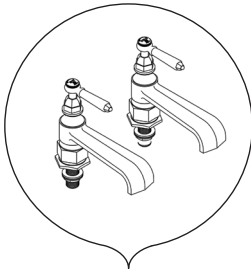

*The complete range*

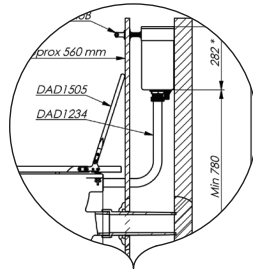

Drummonds offer a complete range of products for your bathroom – from taps and wastes to towel rails and accessories. Our products are WRAS approved and our service ISO accredited.

*Technical Drawings*

*Installation Manuals*

Finish (exterior)	Dimensions (mm)			Capacity (litres)	Weight (kg)
	L	W	H		
Raw	1830	750	645	220	155

## *Quality*

Technology and machines can't always improve a process or provide the best quality. We have kept many traditional processes that cannot be found elsewhere, relying on skills that cannot be reproduced by machine.

*Distinction*

We ensure that our products are both distinctive and practical for every day use.

*Handmade*

Combining a hand glazed china bowl with a natural marble vanity top results in this beautiful Calder basin suite.

*Individual*

Our baths can be individually finished to your requirements, including an exterior paint colour of your choice, and chrome or nickel plated feet.

## *International*

A Drummonds bath, WC and basin in a property on a Japanese island with uninterrupted views across the Pacific Ocean designed by p-csh.com

## *Classic*

A classic bedroom, with high ceilings and ornate coving, is the perfect setting for our polished Spey bath.

## *Contemporary*

The Usk bath, which is based on the shape of the original tin baths, sits effortlessly in this contemporary marble bathroom designed by Marc Newson.

*Bespoke*

Whether we custom finish  
the exterior of your bath,  
or design shower enclosures  
for you, please speak to us  
about your project  
to see where we can help.
